9. Expected consequences if Board/Commission were abolished and responsibilities: a) were assigned to existing/additional staff, b) were transferred to another agency (specify), or c) were dropped.

a) The impact of losing the ability to appoint an ad hoc committee to direct technical input and cooperative working relationships with staff would be increased staff time at the expense of other priority areas, need to pay for technical expertise not available on staff, increased time to reach decisions, more time required of stakeholders for their participation, and the possibility that rural and less represented areas may lose their voice in agency decisions.

b) Professional knowledge and expertise would be lost. Most likely agency is the Department of Licensing.

c) Agency would need to find technical advice elsewhere.

9. Expected consequences if Board/Commission were abolished and responsibilities: a) were assigned to existing/additional staff, b) were transferred to another agency (specify), or c) were dropped.

a) The impact of losing the ability to appoint an ad hoc committee to direct technical input and cooperative working relationships with staff would be increased staff time at the expense of other priority areas, need to pay for technical expertise not available on staff, increased time to reach decisions, more time required of stakeholders for their participation, and the possibility that rural and less represented areas may lose their voice in agency decisions.

b) Professional knowledge and expertise would be lost. Most likely agency is the Department of Licensing.

c) Agency would need to find technical advice elsewhere.
